Are fingerprints unique?

What do you mean by unique?

Real Question:

Are fingerprints distinguishable?

Face Recognition:

same person?

Same person?

Yes

- I have just demonstrated a massively parallel face recognition computer
 - Question:
Are computers better or worse than people at faces?
-

How do computers recognize faces?

Landmarks

Epilogue: Our future?

Operator: "Thank you for calling Pizza Hut."

Customer: "One All-Meat Special..."

Operator: "Thank you, Sir. Your voice print verifies with your National ID Number: 6102049998"

Customer: (Sighs) "I'd like to order an All-Meat Special pizza..."

Operator: "I don't think that's a good idea, sir."

Customer: "Whaddya mean?"

Operator: "Sir, your medical records indicate that you've got very high blood pressure and cholesterol. Your Health Care provider won't allow such an unhealthy choice."

Customer: "Darn. What do you recommend, then?"

Epilogue:

Operator: "You might try our low-fat Soybean Yogurt Pizza. I'm sure you'll like it"

Customer: "What makes you think I'd like something like that?"

Operator: "Well, you checked out 'Gourmet Soybean Recipes' from your local library last week, sir."

Customer: "OK, lemme give you my credit card number."

Operator: "I'm sorry sir, but I'm afraid you'll have to pay in cash. Your credit card balance is over its limit."

Customer: "@#%/\$@&?#!"

Operator: "I'd advise watching your language, sir. You've already got a July 2006 conviction for cussing ... "

Thanks
