

# Call for Papers

## Modeling and Simulation – Methodology, Tools, Software Applications (M&S-MTSA'07)

Part of 2007 Summer Computer Simulation Conference (SCSC'07)  
July 15 - 18, 2007 – San Diego, California

Group Chair: Mhamed Itmi

INSA-ROUEN, France  
Itmi@insa-rouen.fr

Associate Group Chair: Ralph C. Huntsinger

California State University-Chico  
drralph@ecst.csuchico.edu – drralph@humboldt.edu

<http://www.sce.carleton.ca/faculty/wainer/SCSC07/SCSC'07-Tracks.htm>

Sponsored by the Society for Modeling and Simulation International [SCS]

The purpose of the **M&S-MTSA'07** Group is to bring together internationally renowned researchers to present their latest work in all areas of modeling and simulation that are applicable to methodology, tools, and software applications. Topics include but are not limited to the emerging methodologies and tools in:

- Continuous Systems Simulation Languages and Applications
- Discrete Systems Simulation Languages
- Software Tools for Game Development
- Hardware/Software Modeling
- Data Mining Models
- Embedded and Firmware Modeling
- Evolutionary Programming
- Reconfigurable Systems & Simulation of Complex Physics and Mechanics Systems
- Transportation and Logistics Software
- HLA Applications
- Information Technology modeling
- Web Based Modeling
- Bioinformatics Modeling
- Software for Environmental Modeling

Submission Procedures: Please follow the submission instructions at

<http://www.sce.carleton.ca/faculty/wainer/SCSC07/SCSC'07.htm> and submit your paper to the web site <http://www.softconf.com/scs/SCSC07/>

Important Dates:	Submission of Papers	April 20, 2007
	Workshop/tutorial proposals	April 20, 2007
	Special INVITED Papers	April 30, 2007
	Notification of acceptance	May 25, 2007
	Final Manuscript in PDF form	June 22, 2007
