## Conference on QA&Testing for embedded systems

The 5th edition of the International Conference QA&TEST has just launched last call for registrations to attend the Conference on QA&Testing for Embedded Systems in Europe. The deadline for registrations is the 13th October. QA&TEST 2006 will be held on 18th, 19th and 20th October in Bilbao (Spain). A wide range of Software Testing professionals have shown their interest to attend this outstanding event for the last months. During the last edition, QA&TEST gathered near hundred and fifty professionals and experts from 12 different countries in the field of Testing and QA.

This edition, the main objective of QA&TEST is to present the relevant Embedded Software Testing not only in the software development and electronic devices areas, but also in different industrial areas such as Transportation, Banking, Pharmacy, Aeronautics, Automotive and Research among others.

International and renowned experts like Lawrence E. Day, from the Air Force Boeing Company, and Gabriel A. Wainer, from the Carleton University in Canada will be in charge of the tutorials at this unavoidable appointment in the Embedded Software sector. The first tutorial will be focused on Agile Software Development, Inspections and the second one will talk about the Application of the Test Driven Technique for Development and Testing of Embedded Systems. QA&TEST attendees will also have the chance to attend the 3 Keynotes that will be imparted during the 3 days that will last the event. ITIL and How to Test and improve your Test Capabilities will be two of the 3 topics that will be presented by international speakers such as Valentín Galán or Ray Arellano (IBM Corporation).

The official programme of QA&TEST will consist of 6 thematic tracks: Configuration Management for Embedded Systems, Requirements Management, Software Development Techniques and Processes, Testing Real Time Embedded Systems, Test Automation and Certification Strategies. Professionals that are interested in QA&TEST can find detailed and updated information about the event on the event website: ([www.qatest.org](http://www.qatest.org)).

This fifth edition of QA&TEST has the honour to have the Technical Support of the IEEE (Institute of Electrical and Electronics Engineers) and the Institution of Mechanical Engineers; the CESSI of Argentina and the COIIE (School of Engineering and Computer Science of the Basque Country) as Supporting Organisations and the sponsorship of companies like Innovalia, SQS, S.A., and Sogeti.
